PROFESSIONAL EXPERIENCE

FOUNDASION

Jersey City, NJ

iOS Developer

Dec 2021- Present

- Led end-to-end development of 2 iOS applications and uploaded to the iOS app store.
- Currently developing an iOS app for improving dating profiles. It processes images using the gpt4 vision api provided by Open AI. Future updates will include enhancing images, editing images and helping users chat with their matches.
- Implemented responsive design principles, guaranteeing a consistent and user-friendly experience across different iOS devices.
- Adapted quickly to changing project requirements, maintaining flexibility and focus on project goals.
- Identified and resolved complex issues through thorough debugging, enhancing overall app stability and user experience.

CROLL REYNOLDS

Parsippany, NJ

Software Engineer Intern

June 2018 - Dec 2021

- Increased the productivity for calculating and validating equipment sizes for engineers by 400%
- Collaborated with the Engineering Manager and other Engineers to implement new features
- Migrated GW-Basic (command line) programs into Visual Basic .Net (WPF GUI) programs.
- Built a new sizing program using Python. Interface designed using PyQt5
